

EPA REGION 10 OWW TOPIC BRIEFING
Deschutes River TMDL – Potential Segments for Approval
DRAFT - INTERNAL and DELIBERATIVE
March 21, 2017

Purpose

Ex. 5 Deliberative Process (DP)

Background

The Deschutes TMDL package includes 73 individual TMDL calculations for unique waterbody-pollutant combinations. The TMDLs have been written to address bacteria, water temperature, DO, pH, and fine sediment impairments for the Deschutes River and its tributaries.
